Course overview

This highly regarded programme will prepare you for a career in urban planning and development, where you may be required to shape and consider development proposals and devise or interpret plans and policies, negotiate and regulate development schemes, undertake community consultations, develop evidence and present reports to clients and decision makers. In line with our academic strengths in planning and development and real estate markets and investment, this Master’s programme will develop your specialist knowledge and skills in planning and development and equip you for a career in the private or public sector. The MSc Spatial Planning and Development is accredited by the Royal Town Planning Institute and the Royal Institution of Chartered Surveyors.

The programme focuses on planning as it engages with economic and property development.
