Our great location is one of the many advantages of studying at Henley. The Whiteknights campus is only a short distance from Reading town centre, which has some of the best retail and entertainment facilities in the UK. London Paddington is just 30 minutes from Reading by train. Direct links with both London Heathrow and London Gatwick airports. Oxford ‘the city of dreaming spires’ is just 25 minutes by train. If you prefer the countryside to city life then there are plenty of attractive riverside towns and villages to discover along the beautiful Thames Valley, as well as country walks in the Chiltern Hills. Bicester Village — the designer outlet shopping centre — is just an hour away by car.

The town has a proud history of welcoming people from across the globe, and international students often comment on the warm atmosphere and multicultural vibe found here.

We have 134 hectares of green parkland surrounding a central hub of key buildings, so you’ll find plenty of places to relax during the day. The campus is at the centre of University life and provides a special sense of community.

Whiteknights campus is a beautiful green Oasis, with its distinctive woodland walks, conservation meadows and large lake. Its appeal stems from both the natural beauty of the landscape to the university architectural diversity.

REAL ESTATE & PLANNING

When I first joined I was drawn by the beautiful campus setting and the proximity to London. When choosing where to study for my Master’s, Reading was an obvious choice. Reading is top in the country for real estate. The network of friends that I have built up around me will be vital. As we will all be entering the property industry together, they are an immediate network of contacts I can avail myself of throughout my career. The course also included case study trips to different cities across Europe.
